TA-7700 | MediaHub Extender™

An easy-to-use interface connectivity panel that allows guests to connect their portable electronic devices to the in-room TV or sound system. Guests can play their own movies, music and games, even business presentations. The TA-7700 also provides guests with needed power outlets and a convenient Internet access point.

MediaHub Extender mounts in furniture, paneling, or use our optional housing to mount it on a table or desktop.

- The MediaHub Extender is compatible with almost all TVs
- All-in-one connectivity panel for your guest's electronic devices (such as laptops, digital cameras and video cameras, iPods, game consoles and more)
- Compatible with channel mapping, guests use the TV remote to select the input channel their device is using
- Attractive acrylic DeskCard provides guest user instructions
- USB 5V power socket lets guest charge portable devices
- Provides guests with two easy-to-find power sockets, available in choice of US, UK or EU power sockets
- Gives guests wired Internet access through one convenient panel
- Install as one extended unit or mount connectivity panel in one location and the power/Internet panel in another
- Prevents guests from tampering with existing TV connections
- Can be deployed worldwide
- Includes all cables needed for installation to TV

TA-7700 | MediaHub Extender™

Built for Commercial Use

MediaHub Extender is a commercial connectivity panel, designed and built using quality materials to withstand daily use by hotel guests.

iPod/iPhone, MP3 Player or Laptop Audio

Guests can play their own music through the TV sound system using a standard audio jack to connect their devices to the panel.

Video Media

Guests can view video media from their laptop, camcorder, DVD player and any other device supported through VGA, composite AV, S-Video and HDMI.

Interactive Game Entertainment

Guests can connect game consoles to the TV through composite audio/video or HDMI connectors.

Channel Mapping

MediaHub Extender is compatible with a wide range of TVs and supports channel mapping for device selection. The guest uses the TV remote to switch the TV channel to the input channel of the device they want to use. An optional acrylic DeskCard is perfect for providing the designated channel mapping.

Multiple Mounting Options

MediaHub Extender can be mounted in a variety of ways. Build the panel into caseworks or millwork (furniture build-ins), or use our optional desktop housing to mount it on a desk or table.

USB Charging

USB 5V power socket provides a convenient way for guests to charge their portable devices.
