Pull-Through Access Point™

Ethernet Cable Holder
Connection Point for
Guestroom Connectivity

Pull-Through Access Point™ (TA-6300) Ethernet Cable Holder for Wired Guestrooms

The Pull-Through Access Point™ keeps any CAT5 cable in place, providing a straightforward solution to cable management issues. This visually attractive product offers a low-cost solution to in-room HSIA Ethernet cable placement. The Pull-Through Access Point™ has a unique clam shell design that allows the CAT5 cable to slide easily while keeping it in place. The unit can be opened with a regular Phillips tip screwdriver when CAT5 cable replacement is necessary by a technician.

The Pull-Through Access Point™ provides a complete in-room connection kit in a single box, making installation quick and easy. Each connection kit includes the weighted pull-through holder, CAT5 cable, branding label, instruction card holder, insert card and theft deterrent mounting pad. The TeleAdapt HSIA connection kit take the guess work out of purchasing, inventory and installation for both hotels and service providers.

The TeleAdapt DeskHub® line was created to provide recognizable connection points for guest HSIA, offer powerful property branding opportunities, streamline cabling requirements and leave a lasting impression with every guest and customer.

Pull-Through Access™ Features and Benefits

- Creates a recognizable access point for guest HSIA
- Advertises your HSIA in-room presence
- Logo and DeskCard™ offer branding opportunities
- Solves guestroom cable management issues
- Adhesive double-stick foam base plate for security
- Weighted to stay in place during use
- Rubber feet for desk surface protection

Pull-Through Access™ Clam Shell Design

The Pull-Through Access Point™ clam shell design allows for the CAT5e cable to slide through easily while keeping it securely in place for guest use. The Pull-Through Access Point™ can be opened with a small tip screwdriver when CAT5 cable repair or replacement is necessary.

DeskCard™ Advertises the HSIA Amenity

The DeskCard™ instruction card holder can be used to advertise and showcase property amenities, seasonal travel special, or display HSIA Wi-Fi and Ethernet guest login instructions. The DeskCard™ fits into the slot at the rear of the Pull-Through Access Point™.

DeskPlate™ Adhesive Foam Padding

TeleAdapt offers a more permanent solution with the DeskPlate™ Adhesive foam line for securing the Pull-Through Access Point™ to the desktop surface. The DeskPlate™ makes removal of the Pull-Through Access Point™ from the desk very difficult without the use of tools.

Pull-Through Access Point™ Specifications
