

Multimedia iPod Docking Solution...

Integrated Auto-Switching makes ...playing iDevices totally plug-and-play

- Plays iDevice music and video through the in-room TV screen and sound system
- Automatically senses when guest presses PLAY and switches TV to the correct AUX input (switches back to tuner mode when guests disconnects or presses STOP)
- Compatible with hospitality's most popular TV brands and VOD providers
- Supports all iDevices including iPod Touch®, iPhone® and iPad®
- Supports A/V playback from popular multimedia iDevice Apps such as Pandora, Netflix, Air Video and Keynote
- Charges iDevice while docked, includes high current AC adapter for iPad charging
- Includes furniture grommet for casework wiring applications
- Packaged with two cap options: blank or with basic guest instructions
- Choose among base and cap colors to match your room decor
- Silkscreen the cap with your logo (additional charge, MOQs apply)
- Can be deployed worldwide
