TA-9600 | RothDock for iPod/iPhone – Wireless Audio Dock for MediaHub HD™

Guests just place their iPod® or iPhone® into the RothDock and stream their music wirelessly from the bedside through the in-room TV or sound system – without costly or complicated wiring. The RothDock also charges the iPod or iPhone.

Sleek attractive, low-profile dock puts complete iPod / iPhone control right at your guest's fingertips.

- Stream audio wirelessly via 2.4GHz direct to the in-room TV or sound system – no costly or complicated wiring
- Built-in iPod dock – compatible with all iPods and iPhones with 30-pin connectors
- Includes remote control, which mimics the iPod/iPhone controls so device can remain docked
- If the docked iPhone rings the music fades and guests hear the ring through the TV or sound system
- Additional 3.5mm stereo input for guest's music-enabled MP3/Mobile Phones, etc., is included on dock
- Easy installation with MediaHub HD™, just plug dock in at bed side. Plug mini-connector on receiver into the available iPod port on the back of the MediaHub HD and install
- Can also be installed as a stand-alone and integrated with the MediaHub HD at a later date
- True TV auto-switching when integrated with the MediaHub HD
- Built in charger charges iPod or iPhone

TA-9600 | RothDock for iPod/iPhone – Wireless Audio Dock for MediaHub HD™

Install with the MediaHub HD for complete guest connectivity with auto-switching.

Main Dock Features
