

MediaHub™

Today's guests check-in with their own... **in-room entertainment**

## Introducing... **the MediaHub entertainment panel series**

Today's guest checks-in with all their personal electronics and they want to use them. They want to watch their own TV shows and movies, play their own games, and listen to their own music selections. Whether they're stored on an iPod, a laptop, or other portable devices, your guests want to access them, and now they can. The MediaHub lets you **...plug them in.**

The MediaHub completes the in-room entertainment system. Our easy-to-use, low-profile connection panel acts as a gateway to your guest's personalized in-room entertainment. Guests plug their electronics into the panel turning the TV into a giant viewing screen, or the in-room stereo system into their own personal sound system. There is even a charging port.

These beautifully designed products feature trim options to fit any decor and mounting options to solve even the most challenging room configurations.

For more than 17 years the hotel industry has turned to TeleAdapt for coming trends in guest technology. Today's hotel guests want to plug in **...be the hotel that lets them.**

### Table of Contents

Individual cables or guest kits.
- 7 | **MediaHub Mounting Options**  
Mount alone or attached to the TV.

All MediaHub products are available **in a variety of styles and trims**

MediaHub HD™

Bluetooth lets guests stream audio through the TV ...**wirelessly**

The MediaHub HD is the first and only entertainment panel to feature Bluetooth technology for the hotel industry. Bluetooth® allows A2DP-enabled cell phones, laptops, and other portable devices to wirelessly stream audio through the TV speakers. Guests can fill their room with the sound of their own music without leaving their device tied to the TV.

Built-in auto-sensing recognizes the device being used and automatically switches to the correct input. Toggle between multiple devices by using the LED/buttons.

A single HDMI cable connection to the TV means installation is simple and easy. The MediaHub HD is compatible with any TV that has an available HDMI port.

Connection Ports for the Guest

- A Composite Audio/Video
- B S-Video
- C Mini Stereo Jack
- D VGA (RGB)
- E HDMI
- F USB (5v) Power
- G Bluetooth (wireless audio)

*A single HDMI cable connection to the TV makes installation simpler and less costly.*

MediaHub™

MediaHub Active™ | with Auto Sensing

When coupled with a compatible TV brand, this auto sensing/switching, easy-to-use entertainment connection hub lets your guests take full advantage of their room's TV by accessing it for all their electronic devices. Like the MediaHub HD, It senses the device being used and automatically switches the TV to the appropriate input, switching it back when the device is unplugged. Ask your sales representative for a list of compatible hospitality TVs.

MediaHub Standard™ | with Channel Mapping

The MediaHub Standard also allows your guests to connect all their electronic devices to the in-room TV. This cost-saving option features channel mapping instead of auto-sensing. The guest uses the TV remote to switch the TV channel to the input channel of the device they want to use. An optional acrylic DeskCard is perfect for providing the designated channel mapping.

All the entertainment features of the MediaHub **plus power and data**

**A** Power plug outlet  
**B** Internet jack

The MediaHub Extender and the PowerHub can be ordered with these plug configurations:

- USA 110V
- UK 220-240V
- EU 220-240V
- UK/EU 220-240V
- CHINESE 220-240V
- UNIVERSAL 220-240V

## MediaHub Extender™

The MediaHub Extender™ offers the same endless connectivity and entertainment possibilities as our other MediaHub products, while providing the convenience of extra power and data outlets as well. Available in HD, Active and Standard, the MediaHub Extender gives you the added flexibility of installing the MediaHub and the PowerHub™ separately.

## PowerHub™

Order the PowerHub with two of the same power outlets, or two different but compatible ones.

## Docking stations...

AV Pull-Through

Roth Dock

ProDock

...guests play their own music while charging their iPad, iPod or iPhone

Today's hotel guests arrive with their own music and video selections stored on their laptop, MP3 Player, iPad®, iPhone® or iPod® ...and they want to access them. Nothing will enhance their stay more than the ability to play them through the in-room TV or stereo system. Our complete line of audio products will let them do just that.

The iPod Docking Adapter is a simple solution for adding iPod connectivity to the MediaHub HD. A mini-connector is attached to the dedicated iPod port at the rear of the MediaHub. An iPod cable or docking station can then be plugged into the adapter allowing guests to enjoy their own music and videos through the in-room TV.

*\* Cables may vary slightly depending on region.*

Guests often arrive with **electronic devices...**

...but forget the cables

ConnectKit™

Provide the cables your guests need to connect their electronics to the MediaHub. ConnectKit comes in a soft zip bag. Each cable is also available separately, packaged and ready to sell through the mini-bar, concierge, or room service. We can even customize the box with your property's logo.

## Mounting options... with and without a flatscreen TV...

*Whether your property is in the planning stage, going through renovation, or you're just upgrading your rooms, don't forget the most important feature... the in-room entertainment connection panel. The in-room entertainment system isn't complete without it. Let us help you choose the perfect mounting option for your needs.*

### Wall Mount

All MediaHub products can be easily flush mounted into the hotel room wall, or even a piece of furniture, concealing untidy wiring while presenting the guest with a clean easy-to-access panel. For more information talk to your TeleAdapt sales representative.

### Desktop

Our optional desktop housing is sold separately and converts the MediaHub into an attractive, self-contained unit that sits conveniently on a desk or any table top. For more information talk to your TeleAdapt sales representative.

### avComplete™

avComplete™ by Vantage Point is a clean, simple method for mounting the MediaHub with a flatscreen TV. Eliminate untidy wiring with this space saving system. Includes a flat panel mount, sleek wire management channel, and component shelf. Tapered brackets create a floating appearance to the shelf and is a convenient home for all portable devices when connecting to the hub.

### The EVO System™

The EVO System made by Vantage Point is a unique method for mounting any flatscreen TV to any wall in any room. The EVO System is designed to hold a flatscreen TV securely 4" off the wall. It is available in a variety of sizes, finishes, and panel colors. It's not only beautiful, but hides every wire. Designing the exact configuration you need is easy.

### Universal Adapter

The Peerless universal adapter is designed for use with any Peerless TV mount. The MediaHub is presented under the TV and can be used for wall mount or desk-top TV mounts. Also suitable for any MediaHub model including the Extender models with power and data.

### Cable Management Column

The Peerless cable management solution allows for easy retro fit installation of TV and MediaHub. The glass shelf is optional and great if there is not a usefull surface near by to rest media devices. Suitable for any MediaHub model including Extender models with power and data. This unit is independant from the TV bracket so can easily be added to an existing set up.

### ZVOX Z-Base 550

The Z-Base 550 is a single-cabinet surround sound system designed to act as a base platform for most 26"-50" flat panel TVs, complete with speakers, amplifier, virtual surround technology and powered subwoofer. With an integrated MediaHub option guests can enjoy personal video and music selections in the room with amazing quality.
